

Sinopec YH-604T

Thermoplastic Elastomer

Hydrogenated Styrene-Butadiene Block Copolymer

Brief Introduction

Sinopec SEBS YH-604T is a radial hydrogenated styrene/butadiene block copolymer .

Specification

Characteristic of Sinopec SEBS YH-604T	
Property	YH-604T
Styrene Content, %.	33
Solution Viscosity (10%,25℃,mPa.s)	-
Volatile, %.	≤1.0
Hardness Shore A.	78±5
Tensile Strength, Mpa	≥20
Elongation at break, %	≥450
Permanent Deformation,%	≤40
Degree of Hydrogenation,%	≥97
YI	≤4
Stress at 300%, Mpa	≥3.5

Note: Values are typical unless otherwise specified.

Packaging

Sinopec SEBS YH-604T is available with the form of powder and packed in 13kg paper bags.

Applications

Sinopec YH-604T could be used in sealing strip,plastic modification,cable and wire.
